

# Door Measurement Guidelines

- Measure the width and height of the door. Including below the kickplate when present. Measure while door is open.
- If the door has glass, measure the width and height of the glass within the window frame of the door.
- Measure the distance from the glass to the top of the door and to the edge of the door.

# Double-Door Measurement Guidelines

- Measure the width and height of each door. Including below the kickplate, if present.
- If the door has glass, measure the width and height of the glass within the window frame of the door.
- Measure the distance from the glass to the top of the door and to the edge of the door.
